## Floating Fish Studios Release New Products:

**Philadelphia, March 25, 2002:** Floating Fish Studios, a Pottstown, PA based electronic studio, announced, today, that PUNCH DRUNK - Upload The Past...Download The Future (FISHCD 005) and OBOMATIC - Holy Uncontrollio!!! (FISHCD 006) have now been released and are available for sale on amazon.com and cdbaby.com.

PUNCH DRUNK was formed in late 1991 in South Philadelphia, PA. PUNCH DRUNK abandoned "traditional" instruments and began working exclusively with electronic percussion, sequencers & computers. Their live shows consisted of laser lighting, fog machines, strobes and an array of cheap electronic toys. The music, self-described as Hardtech Robocore, was loud, quirky, and aggressive. Upload The Past...Download The Future is a collection of remastered tracks recorded during 1992 - 1994. Some tracks have appeared on previous releases and others have never been released before.

OBOMATIC consists of members from ANY QUESTIONS? and is led by Steve O (PUNCH DRUNK) in this modern day supergroup. Their debut CD, Holy Uncontrollio!!!, is a high energy, danceable tour-de-force. The single, One Life Combo, has been featured on US radio and all ten tracks are ready to take the US and European club scenes by storm.
